

THE COCHRANE DATABASE OF SYSTEMATIC REVIEWS – NEW PERMISSIONS SERVICE

John Wiley & Sons, Publishers of the Cochrane Database of Systematic Reviews is pleased to announce that it has partnered with the Copyright Clearance Center to offer customers an automated, online permissions clearing system. RightsLink® enables customers to clear permissions for re-use of Cochrane content swiftly and easily, at any time, from anywhere in the world, directly from the point of content on *The Cochrane Library* website (www.thecochranelibrary.com).

Requests to re-use or republish figures, tables, extracts and entire reviews can now be cleared online and a license providing details of the permission and the terms and conditions of the re-use is available for immediate download.

Simply follow the steps below to obtain permission via RightsLink® for material from the Cochrane Database of Systematic Reviews:

- Locate the desired Review or Protocol on *The Cochrane Library* website (www.thecochranelibrary.com)
- Navigate to the appropriate Abstract page
- Click on the 'Request Permissions' link, on the right hand side of the page (See example image below)
- Follow the online instructions and select your requirements from the drop-down list
- Click on 'quick price' to get a quote
- Create a RightsLink® account to complete your transaction (and pay via a secure online system, where applicable)
- Read and accept our Terms & Conditions and download your license

The screenshot displays the Cochrane Library interface for the article 'Zinc for the common cold'. The page includes a navigation menu on the left, a central article summary, and a right-hand sidebar with 'ARTICLE TOOLS'. The 'Request Permissions' link is highlighted with a red circle. The article title is 'Zinc for the common cold' by Meenu Singh and Rashmi R Das, published in February 2011. The abstract text is visible below the article title.

For further information follow the link to view the [RightsLink® Slideshow](#).
